

Get Started - Create a Synchronization Profile

Prerequisites to create a Synchronization Profile

Prior to starting creating a profile, perform the following steps:

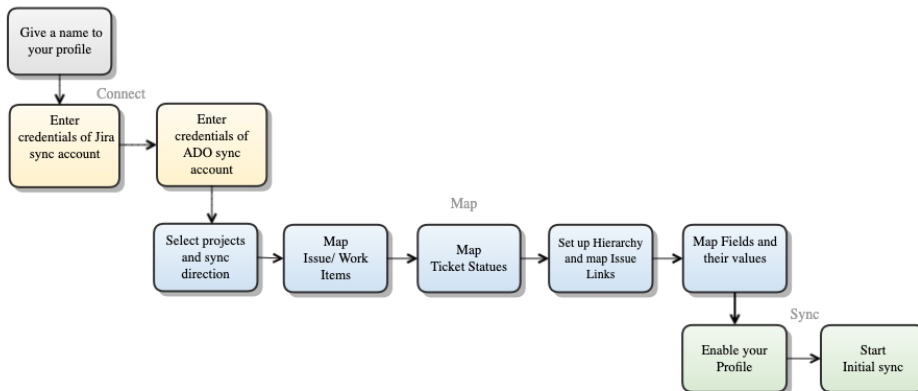

- Create a [dedicated TFS4JIRA account](#) as a Synchronizer
- Set up the **UTC time zone** for your Synchronizer account
- Provide the proper [permissions](#) to your Synchronizer account

Creating a Synchronization Profile - Cloud Native App

Watch our quick video tutorial on how to create a Sync Profile and find [more details here](#).

Your browser does not support the HTML5 video element

Steps to create your Profile and start the Initial Synchronization
